PROFESSIONAL SUMMARY

React.js Developer with 2+ years of experience building production web applications, plus working knowledge of Java and Spring Boot. Skilled in responsive UI development, reusable component architecture, and REST API integration. Has independently built a Java Spring Boot backend for a live project, and regularly collaborates with backend teams on technical specs, debugging, and Agile feature delivery.

TECHNICAL SKILLS

Frontend & Architecture	: React.js, JavaScript(ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design.
React Ecosystem & State	: React Hooks, Context API, React Router, Reusable Component Architecture.
Backend & Data	: Java, Spring Boot, REST API Design & Integration, Axios, Fetch API, SQL, MySQL, JSON
Tools & Testing	: GitHub, Postman, Swagger, VS Code, Debugging, API/UI Testing

PROFESSIONAL EXPERIENCE

1. React Frontend Developer | Numota Technology (Promoted from Intern) | October 2023 – August 2025

Nu Trade -Real-Time Trading Dashboard

- Built responsive real-time dashboard using React.js with Axios and Fetch for live REST API data integration
- Created reusable component libraries that optimized rendering speed by 25% and reduced feature development time by 4 days per sprint
- Partnered with backend teams to integrate Python and MySQL APIs, debug web issues, and align on technical specifications
- Ensured code testability and performed manual UI testing and bug verification before deployment

NuCamp-Camp Management Platform

- Developed React.js modules for scheduling, registrations, and real-time data handling
- Delivered responsive interfaces that streamlined workflows for organizational staff
- Scoped requirements and deployed features within Agile sprint cycles

2.React Frontend Developer (Freelance / Team Project) | September 2025 –March 2026

- Architected modular frontend interfaces for live commercial trading web application
- Developed responsive dashboards and dynamic data visualization components with real-time REST API integration
- Optimized frontend performance, resolved bugs, and delivered client-requested features iteratively.

3. React Frontend Developer (Freelance / Team Project) | April 2026 – Present

- Built the frontend for an online booking app for grocery and ice cream orders, using React.js.
- Handled data entry and management for shop inventory and product listings, writing SEO-friendly product descriptions to improve search visibility.

INDEPENDENT PROJECTS

1.eTournament Auction Manager (Real-Time Auction Platform) | React.js, Java Spring Boot, REST API, SQL

- Engineered live IPL-style tournament management system with Java Spring Boot backend and responsive React.js frontend
- Built robust REST endpoints for real-time player bidding, dynamic team budget tracking, and instant roster updates

2.BakeBuddy (E-Commerce Booking Platform) | React.js, JavaScript, CSS

Built mobile-responsive cake booking web app with product catalog and multi-step order form for streamlined checkout

EDUCATION

B.Sc. Computer Science | Manonmaniam Sundaranar University (Graduated: 2022 | 72% CGPA)

TRAINING & CERTIFICATIONS

Certified Frontend & Full Stack Development Training | QSpiders, Chennai (July 2022- December 2022)

LANGUAGES KNOWN: English, Tamil, Malayalam
